Dear Participants,

It is our great pleasure to welcome you to the **Galabov Model United Nations conference of 2026**, guided by this year's motto: "*Turning Words into Worlds*". This conference brings together passionate and driven young individuals, united by a shared commitment to dialogue, cooperation and global awareness. This edition marks our **biggest project so far**, reflecting the growth of our community and the ambition we continue to pursue.

We are especially excited that, for the first time, we are introducing a **committee in German**, expanding both the diversity and inclusivity of our debates. Over the coming days, you will step into the roles of world leaders, engage in meaningful discussions and collaborate on innovative solutions to global challenges.

We encourage you to speak boldly, think critically and make the most of every moment - both inside and outside the committee rooms.

We hope you will have a joyful time at **GALMUN 2026**. This booklet serves to guide you through the conference and assist you before, during and in-between the sessions. Use it freely! :))

Sincerely,
The GALMUN Secretariat 

POI: Who are we?

What started as a small group of students, passionate about international relations, has grown into a vibrant community. Over the years, our MUN club has participated in conferences across the world, hosted events of our own and created a space where diplomacy, debate and friendship come together.
